WHO AM I ?

Passionate about interface development and database management, I was trained and graduated from the Webschool Academy in Tel Aviv.

I am excited to bring my creative mindset, project management skills, and aesthetic sensibility to my web development projects.

PRESENTATION

With an initial background in fashion and experience as a stylist/pattern maker, I have nurtured my creativity and artistic sensibility.

However, my passion for visual creation led me to the captivating world of video editing. This transition allowed me to apply my skills while refining my attention to detail and meticulousness.

The combination of my skills enables me to bring a unique and creative approach to the projects I contribute to.

EXPERIENCE

Full Stack Developer

I had the opportunity to apply my skills by working on various projects during my training.
Created a comprehensive project that applied all the skills acquired throughout my training, in collaboration with a multidisciplinary team.

Video Editor

As a freelance video editor, I have accumulated over 10 years of experience working with studios and individuals to create video edits.

Fashion Stylist-Modelist

Preparation and organization of showcases (collection presentations, showrooms...), pattern corrections
